MSME DIRECTORS Summit

Theme:
Empowering MSMEs for
National Growth

ABOUT THE SUMMIT

The MSME sector is the most dynamic and vibrant sector of the Indian economy, and has emerged as the thrust area for future growth in the country. As a critical part of the supply chain, sub-assemblies and services to larger companies, the infinitely more flexible MSMEs can perform activities that are not economically viable for large enterprises. There is huge, employment potential, which, once tapped, could unleash unprecedented growth, powering the Indian economy ahead.

There is a growing realisation that the MSME sector has a huge employment potential at low capital cost, especially in rural and backward areas, enabling equitable distribution and financial inclusion. MSME sector is one of the still untapped high growth segments in India and an essential partner for achieving socio-economic growth. MSMEs, which are spread across both urban and rural areas of the country, mostly form part of the unorganized sector. As per present estimates, the MSME sector including Khadi, Village and Coir industries, consist of 51 million units and provides employment to over 117 million persons. The sector contributes 7% to India's GDP while accounting for 45% of the total manufacturing output and 40% of the exports from India.
